

Topographie du ciel #1

Guillaume Duffner

Topographie du ciel #1

50x50cm

Unique artwork

Courtesy Galerie Dix9 - Hélène Lacharmoise

Description:

Guillaume Duffner's terrestrial maps are borrowed from their initial use. They become maps of the sky, where depth emerges. The artist insists on color and elemental representation to blur the segmentation with doubt. By then, the maps become difficult to identify. As a whole, they are maps for an original cosmos. Complex, bountiful sets of new realities.
