serie Girls

pigment print

Image: 206x150 cm or 81.1x59 in

Edition of 3 ex + 2 AP

courtesy Galerie Dix9 Hélène Lacharmoise

INV Nbr. SR-girl09

Description:

The work comes from a small photography found in a shop in Israel while the artist had a residency in 2017. It was exhibited in the window during several years. This explains why the original photograph was damaged by the sun. The disappearance of the photographic emulsion is revealed through an extreme enlargement made with great technicity and a same resolution all over the image. Moreover it appears that just the blue pigment has resisted over the years.
