serie Emergence

7 photograms, print on Ilford bright silver fibre paper

Image: 1575,5x 287,5 cm

Unique artwork

courtesy Galerie Dix9 Hélène Lacharmoise

Description:

installation of 7 photograms, black and white print on Ilford baryté glossy paper, wooden cardboard, glass 2 mm, wood sticks, acid-free black fabric adhesive, oxidized lead, metal fastener.

installation: 157 x 285 cm

each frame : 49 x 60 cm

The photograms from the "Emergence series" depict successive stages in the evolution of a unicellular organism. From a simple circular form emerges a proliferation that transforms into a network and unfolds through a sequence of prints, gradually darkening from grey to deep black.
