Marion Tampon-Lajarriette

Stream, 2008

Video installation, in loop, colour, mute

10'

Edition of 8 ex + 2 AP

Courtesy Galerie Dix9 Hélène Lacharmoise

Description:

A work directly inspired by the digital world, the one in which works the artist as a videast. A moving world where the image is always un-built and re-built in its own materiality : the pixel.

The video is a result of several compressions and passages through Internet. The flew of pixels has sometimes contradictory movements which create a collision between different currents. Stream is the result of that digital life.
