Rodrigue Mouchez works directly with the elements that define immediate daily life by reconfiguring them into strange and foreign presences. Grounded in his research on the concepts of cycle, alteration or entropy, the artist questions our deeply rooted anthropocentrism often using ephemeral, organic or perishable materials. Altering a set order of things is for the artist a way of producing new schemes of sensibility and narrative possibilities, which have both spatial and temporal consequences.

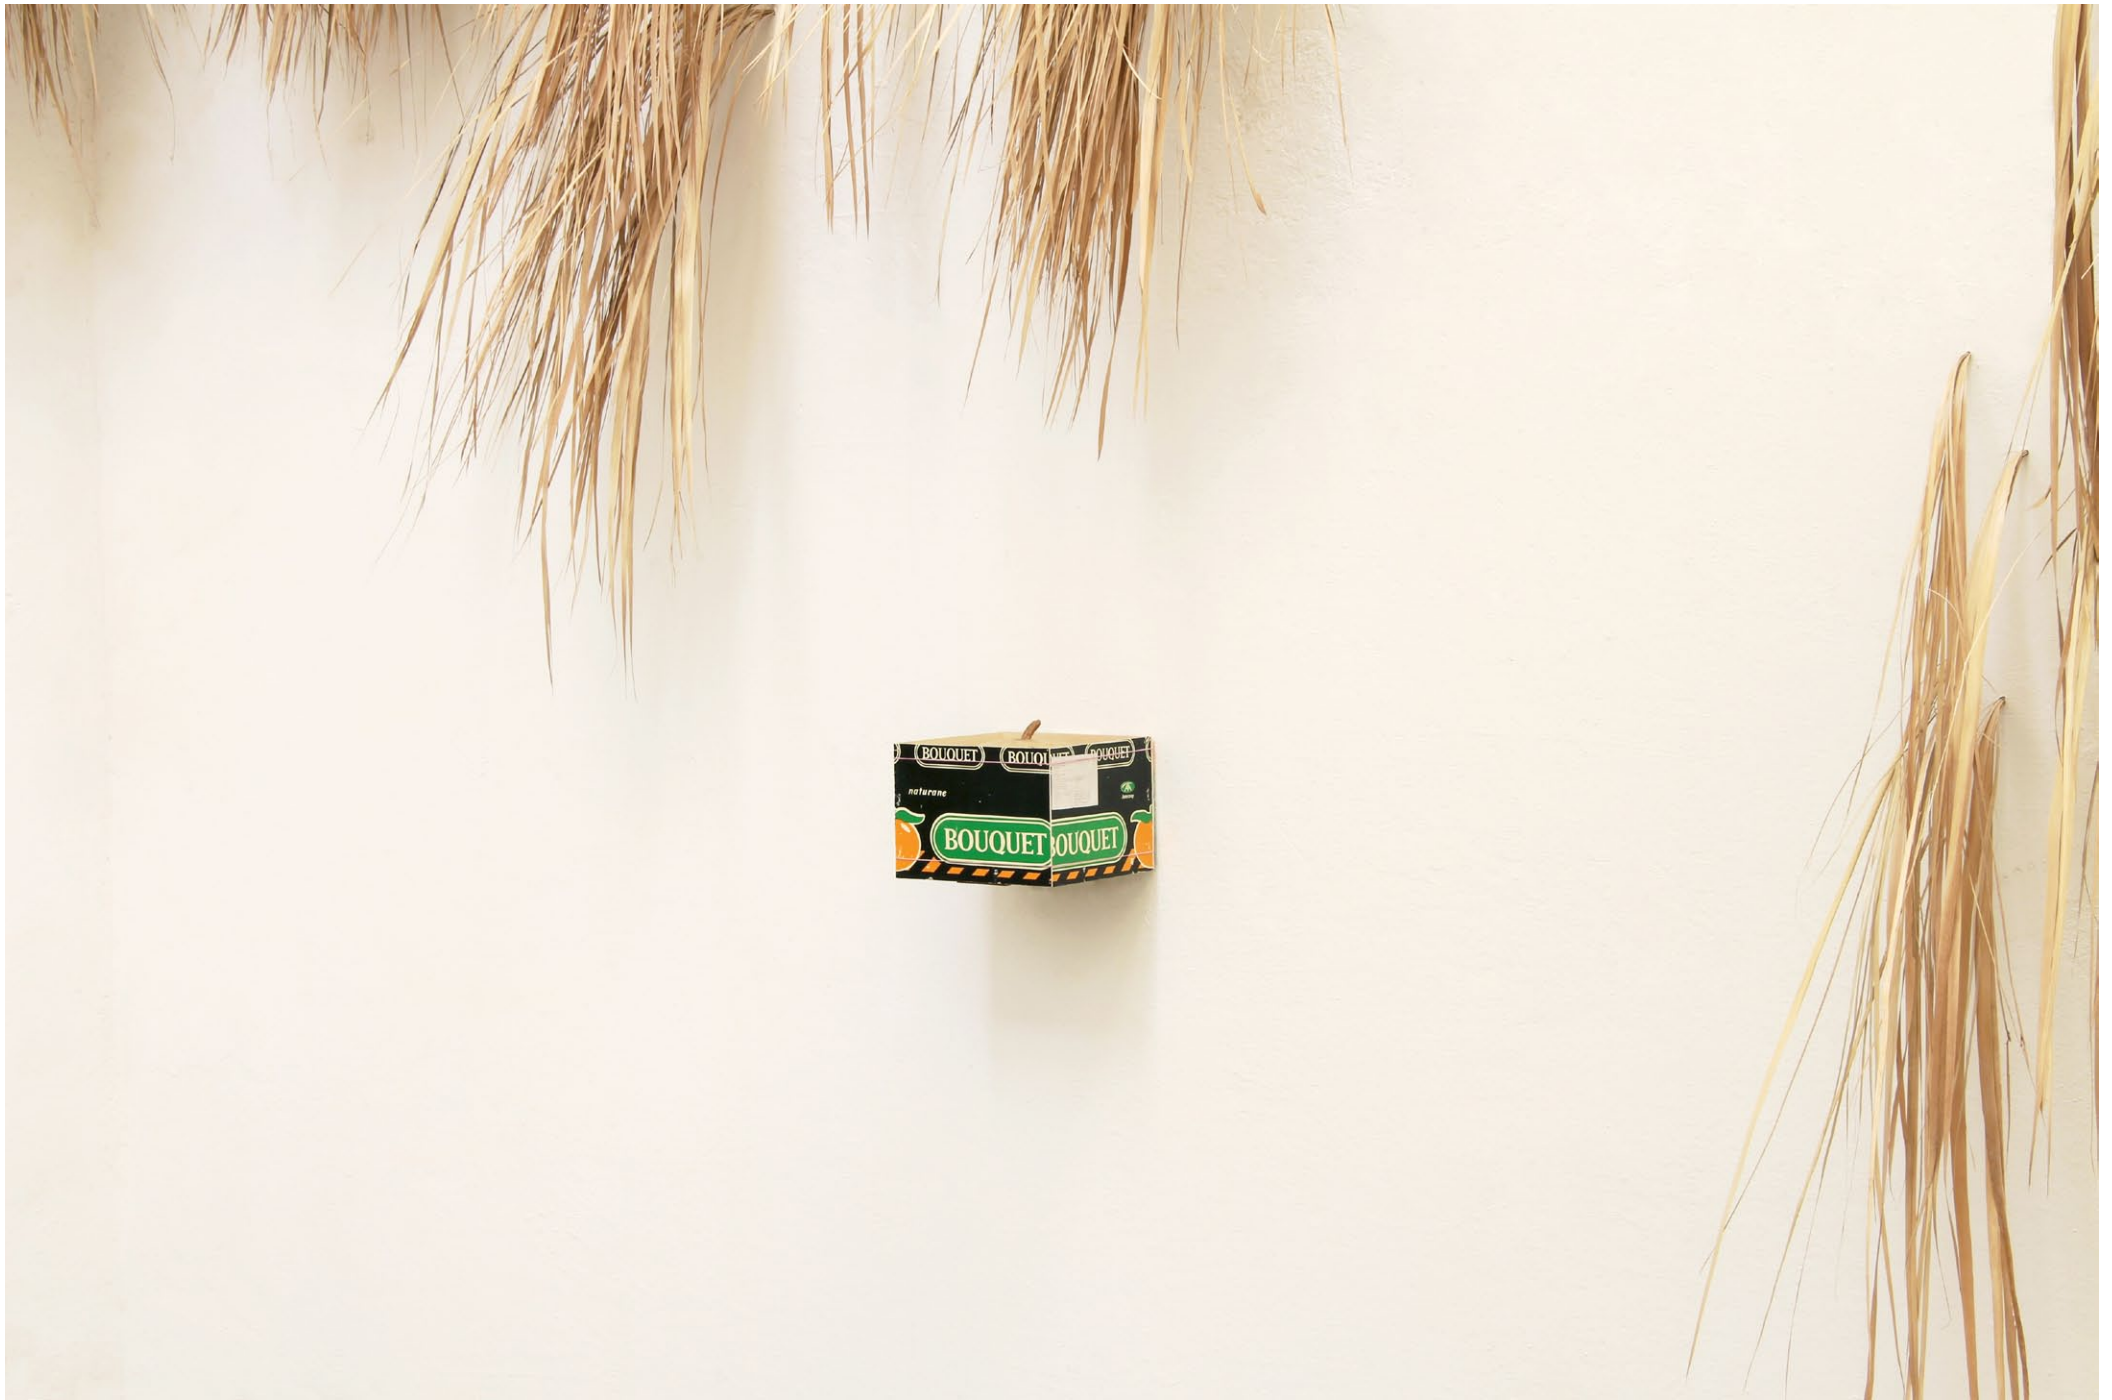

Recent exhibitions include duo show at Massapê Projetos (São Paulo, BR) with brazilian artist Mano Penalva, AGUAS's Special Projects at Untitled Art Miami Beach (Miami, US) and solo exhibitions at Galería guadalajara90210 (Guadalajara, MX) and at Institut Français d'El Jadida (El Jadida, MA). Rodrigue Mouchez participated, these past years, in various international group shows in Galleries or institutions such as Canopy Gallery (Brussels, BE), 68projects-Gallery Kornfeld (Berlin, DE), Z33 Art Center (Hasselt, BE), Le Magasin-CNAC (Grenoble, FR) or at the 5th Biennial of Marrakech (Marrakech, MA).
